* Funding = Contributions + Commitments

Contribution: the actual payment of funds or transfer of in-kind goods from the donor to the recipient entity.
Commitment: creation of a legal, contractual obligation between the donor and recipient entity, specifying the amount to be contributed.
Pledge: a non-binding announcement of an intended contribution or allocation by the donor, which does not necessarily specify which organisation it is intended for or if it is for an appeal or response plan project. In some cases, pledges are recorded early in a crisis and there is a time lag in the commitments and contributions resulting from the announcement. As soon as commitments are made from that pledge, only the remaining balance of the pledge appears in the pledge column in FTS.
